

Introduction to Golden Proportion in Aesthetic Reconstructions

Prof. Philippe Tardieu

What is Beauty, what is Aesthetics? Is there a hidden code to restore lost aesthetics? What should guide us restoring patient's harmony? The presentation will introduce the Golden ratio which is found in nature, in space, in trees and flowers, in DNA helix and in human proportions. The way to make an "aesthetic" analysis including the golden proportion will be presented to apply in our everyday practice. Clinical applications will illustrate the lecture.
