Abstract

Mastering anterior aesthetics provides the ability to restore children's aesthetics, function, and, most importantly, self-esteem. This course will have a didactic portion to discuss restorative after anterior permanent tooth trauma and keys to predictable primary zirconia crown success. During the hands-on portion, participants will strengthen their MTA vital pulp therapy technique, fragment rebonding, and retentive large anterior composite skills and learn efficient and predictable placement of primary anterior zirconia crowns.

Learning Objectives

- Review steps to keys of MTA vital pulp therapy success.
- Master the Cvek pulpotomy with fragment rebonding of permanent anterior teeth with 100% retention.
- Master efficient, aesthetic, and retentive placement of zirconia crowns on maxillary primary incisors.
